The file NEO82_97.DAT contains data on all verified neoplasms as of December 2000.

Variable	Column	Variable Type	Comment
SEQNO	1-5	Character	Study participant sequence number
ID	6	Character	R=ranch hand, C=comparison
CD12	7	Character	H=ranch hand, O=original comparison, S=shifted comparison, R=replacement comparison
CD6A	8	Character	2=attended 1982 physical exam, 3=questionnaire data only at 1982 physical exam, 4=refused questionnaire and physical exam in 1982, C=could not locate in 1982, N=not contacted in time for 1982 exam, ' '=not yet selected as of the 1982 exam.
CD6B	9	Character	2=attended 1985 physical exam, 3=questionnaire data only at 1985 physical exam, 4=refused questionnaire and physical exam in 1985, C=could not locate in 1985, D=deceased at time of 1985 exam, ' '=not yet selected as of the 1985 exam.
CD6C	10	Character	2=attended 1987 physical exam, 3=questionnaire data only at 1987 physical exam, 4=refused questionnaire and physical exam in 1987, C=could not locate in 1987, D=deceased at time of 1987 exam, ' '=either deceased as of the 1985 exam or not yet selected as of the 1987 exam.
CD6D	11	Character	2=attended 1992 physical exam, 4=refused questionnaire and physical exam in 1992, C=could not locate in 1992, D=deceased at time of the 1992 exam, H=strongly refused to provide data for the 1992 exam, ' '=either deceased as of the 1987 exam or not yet selected as of the 1992 exam.
CD6E	12	Character	2=attended 1997 physical exam, 4=refused questionnaire and physical exam in 1997, C=could not locate in 1997, D=deceased at time of the 1997 exam, H=strongly refused to provide data for the 1997 exam, ' '=deceased as of the 1992 exam.
YEAR	13-14	Numeric	2-digit year when neoplasm was diagnosed.
MONTH	15-16	Numeric	Month (1-12) when neoplasm was diagnosed, .=missing.
DAY	17-18	Numeric	Day (1-31) when neoplasm was diagnosed, .=missing.
ICD_NEOP	19-23	Character	ICD-9-CM codes, International Classification of Diseases, 9th Edition, Clinically Modified.
MCODE	24-28	Character	Morphological code which comprises the morphology rubrics of the ICD-Oncology
TCODE	29-33	Character	Anatomical site of neoplasm from "Systematized Nomenclature of Medicine", College of American Pathology, 1976.
PRE_SEA	34-36	Character	YES=neoplasm diagnosed prior to Southeast Asia qualifying tour, NO=neoplasm diagnosed after Southeast Asia qualifying tour.
