## **CASE STUDY PROBLEM-SOLVING MATRICES**

This page intentionally left blank

The 20 case study problem-solving matrices provided on the following pages link the problems identified with the Level I Ergonomics Assessment Checklist and Checklist Scoring Summary to strategies or options which you may use to control ergonomics hazards. The matrices are presented in Table 1 below.

**Table 1**  
**Directory of Case Study Problem-Solving Matrices**

Case Study	
1. Bagging	12. Lubricating
2. Baking	13. Molding
3. Commissary/Meat Cutting	14. Packing/Shipping
4. Cooking (Food Preparation)	15. Palletizing
